

Folding Solar Panel 120w

Ningbo Taurus Industry Co., Ltd. has produced Folding Solar Panel 120w for many years and can provide a variety of Folding Solar Panel 120w. High quality Folding Solar Panel 120w can be used for a variety of applications; if you need it, get in touch with us for prompt online assistance with Folding Solar Panel 120w. In addition to the items on the list below, you can also create a special 120w Folding Solar Panel that is unique to you based on your own requirements. Folding solar panel 120w with built-in high-density monocrystalline solar panel, integrated housing made of ETFE polymer, and IPX4 waterproof.

Folding Solar Panel 120w

As a reputable manufacturer, we would like to offer you a 120w folding solar panel. Additionally, we'll deliver your order on schedule and provide the greatest after-sale support. Folding solar panel 120w with built-in high-density monocrystalline solar panel, integrated housing made of ETFE polymer, and IPX4 waterproof. Portable outdoor solar panels for power stations and solar storage systems (inverter + battery), among other unique requirements, include folding solar panels of 120W for solar systems, 200W, 250W, and 260W, among others.

Product Parameter (Specification)

Model:	120W
Interface:	Mc4
Output:	19.44V 6.17A(120W Max)
Solar Cell:	Monocrystalline
Waterproof grade:	IP65
Craftsmanship:	One-piece molding

Folded Size:	505x423x25mm
Unfolded Size:	1548x505x4mm
Weight:	6KG
Warranty:	12 month

Product Feature And Application

Application

High Conversion of Energy

Upgraded high-density monocrystalline silicon solar panels convert up to 23% more energy. Use the sun's rays to power your devices from anywhere.

DC Powerful Output

With a DC 120W output, it can also charge automobile batteries and accumulators, and the port's wide compatibility is sufficient to fulfill your charging demands in the outdoors.

Design that is long-lasting

The canvas fabric and fine stitching are tough enough for outdoor use. The ETFE polymer coating, which guarantees IPX4 waterproofing, makes the panels resistant to water and dust.

Safe Charging Security

Smart identification of your devices and different gadgets is built-in to provide the best charging speed. Overcharge, overheating, and short circuit protection ensure 100% safe charging.
